AGCO University

Data Engineering Workshop Certificate

This certifies that

Olatunbosun Kolawole

Has successfully completed the **Data Engineering Hands-on Training Workshop**, as a part of Tech Talent Development at AGCO University. The program covered BigQuery foundations, core and analytical SQL, data loading and schema design, partitioning and clustering, nested data handling, reusable transformations, query optimization, and an applied capstone. Over the course of the program, the participant built practical capability in querying, transforming, and optimizing data in BigQuery for business use cases.

Awarded on 12 May 2026
